

Guide to European Newsstream

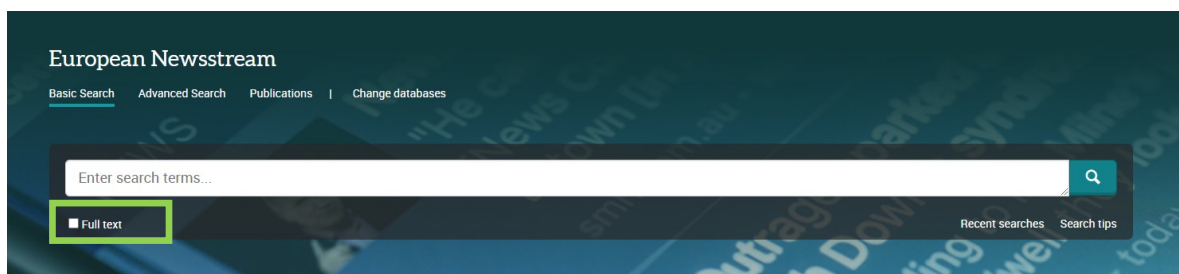

European Newsstream allows you to search UK, European and American newspapers, both old and new. You can search in quality broadsheet newspapers including *The Guardian*, *The Times*, *The Financial Times* and business trade magazines like *The Grocer*.

Using European Newsstream

- 1) Use your OpenAthens ID and password to access EBSCO Discovery
- 2) In EBSCO Discovery, click on **European Newsstream (newspapers)** in the toolbar menu (highlighted in green).

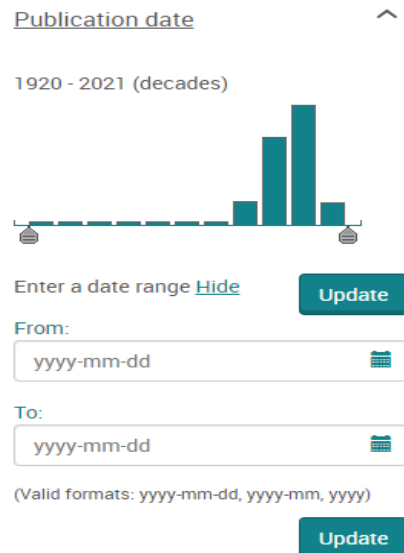

- 3) The below page will open. Here you can use the search box to search by keyword/term. When searching, make sure to tick **Full Text** to the lower left of the search box (highlighted in green).

Filtering your searches

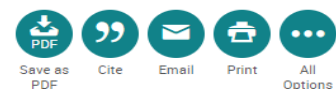

1) You can filter your searches *by date* by going to **Publication Date**. Use the grey handles to change the date period, or type the years you are interested in, and then click update.

2) You can narrow these choices down by selecting a particular **Source Type** first, e.g., *Trade Journals*. You can filter by the newspaper you want by going to **Publication Title**.

When you have looked through your results and found an article to use, you can save them as a PDF, or choose one of the other available options.

More complex ways of searching are available by choosing the **advanced search** option.

You can find **Help Videos** on using **European Newsstream** on our website or via *Skills for Success* on **Brightspace**.
